# *Global Addressing System*

---

## *Many challenges in creating and implementing a new national address system*

- Layout of residential dwellings
- Access through walking pathways or alleys
- Applicable to Rural Areas
- Able to Grow and Develop

# The NEED:

## *Addressing Infrastructure*

- Voter registration, national identification cards and driver's licenses.
- Emergency Services, Law Enforcement, Public Utilities, other Public Services.
- Postal Correspondence & Consumer Communication
- Ease in Commerce for Business and Tourism

The Patent Pending  
**Global Addressing System**  
was developed to address  
the needs of the  
**Republic of Liberia**

---

---

*“...the lack of an address can also mean the lack of legal identity, equal opportunities for employment and social integration.”*

**Professor Anna Tibaijuka**  
Minister of Lands, Housing &  
Human Settlements, Tanzania

---

*“At UN-HABITAT, we are convinced that everyone has the right to an address. If you do not have an address, you do not officially exist.”*

**Dr. Joan Clos**

Executive Director, United Nations  
UN-Habitat

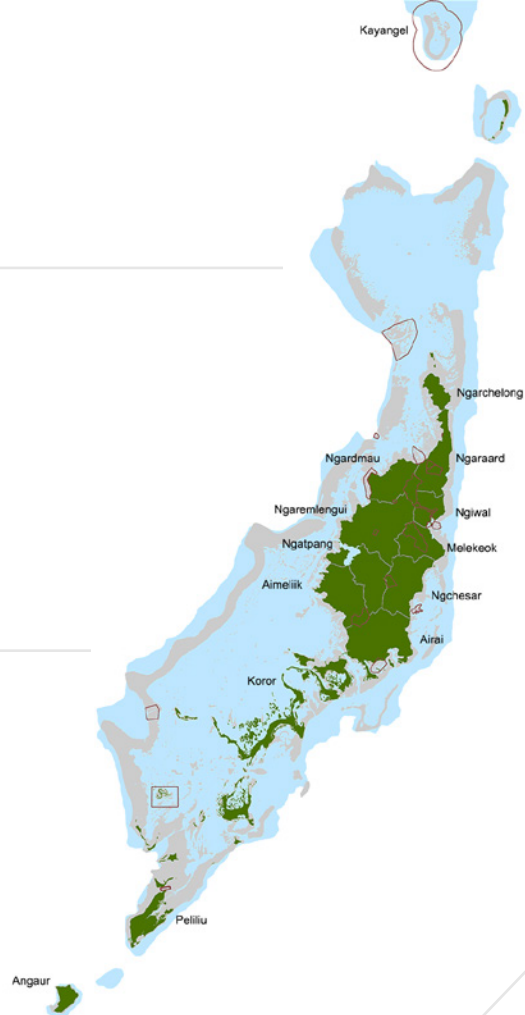

## *Global Addressing System highlights*

- An unique address that can fit into a 8.8 foot by 8.8 foot square.
- Integrate with current established street names, neighborhoods and communities.
- Can grow and fluctuate with rural areas, towns, and cities.
- Each zip code is mathematically tied to a 11.5 mile square location.

---

## *Republic of Palau*

- 16 States, covering 177 sq miles
  - Over 250 islands
  - The remote group of Southwest Islands are some 375 miles from main islands and make up of the states of Hatohobei and Sonsorol.
- 

---

**Example:** The Republic  
of Palau Capitol Complex

Palau Capital Building  
9 N. 7264 E.  
073-1343 Ngerulmud  
Palau

---

## Global Addressing System Portal (G.A.S.P)

- Web Software Solution
  - Includes:
    - Data Management
    - Storage
    - Security

*“In this new urban era, time is not on our side. In a modern world where we have the technology, resources and know-how to do better than the millennium targets, we have no excuse for failure.... An address is the key to a new life.”*

**Dr. Joan Clos**

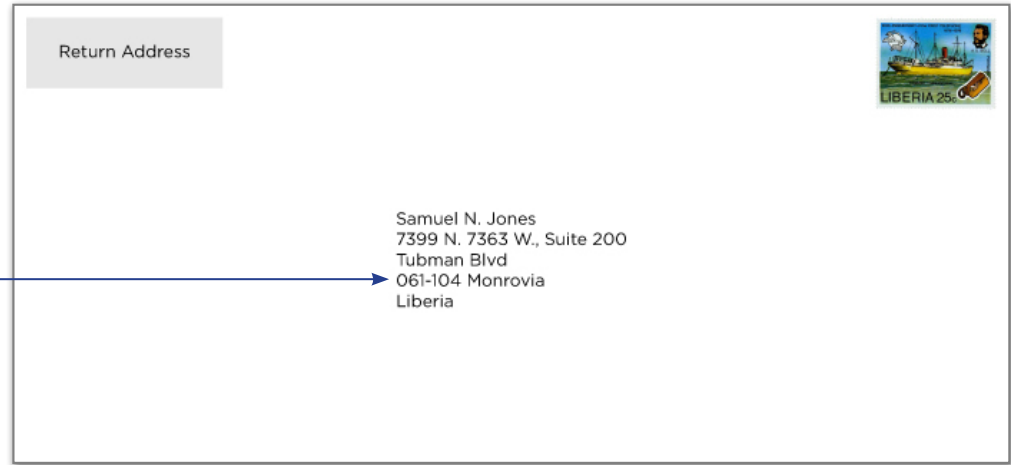

Executive Director, United Nations  
UN-Habitat

# Liberia Addressing

## POSTCODE TYPE AND POSITION

6 digits left of city and above country

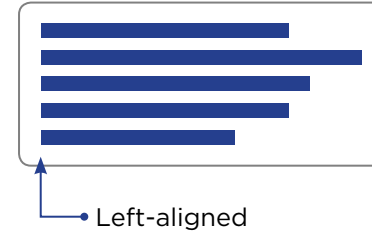

## CODING METHOD

## POSITION OF THE ADDRESS ON THE ENVELOPE
